

Solutions Guide for McDonald's

All the Technology, Services
& Support You Need to Thrive

Proudly Serving McDonald's for Over 40 Years

EverServing your ever changing McDonald's

15.6" TFT Capacitive Touch Screen with Intel® Kaby Lake processor. 64GB SSD, 4GB Memory, optional 2 x 20 display. Win 10 license (dual license LTSC and LTSC). 3 year warranty.

PAR's EverServ® 650 withstands the busiest drive-thrus, the most hectic lunch rushes, and the messiest spilled shakes.

Expandable memory and ample storage allow it to work in the most demanding locations, all while looking good thanks to its modern, sleek design. Backed by PAR's 40-plus years of experience and expertise as a McDonald's supplier, McDonald's owners and operators know they can trust the robust durability of the EverServ® 650 POS hardware because it just works - every day, every time.

The best choice for sound **drive-thru** results

A complete drive-thru headset system designed to give you a competitive edge.

Making sure drive-thru orders are handled quickly and accurately is an excellent way to improve the QSR customer experience & keep guests coming back. Now, PAR is helping you tap into the full potential of your drive-thru with an all-in-one communication system that combines unmatched sound clarity with rock-solid reliability.

Smarter

- Advanced Noise Reduction that cuts through the hum of noisy engines
- Acoustic echo cancellation for clear communications

Modern

- Effortlessly upgrade from single to dual-lane on-site, with color-coded lights for dual lanes
- Easy manager supervision to ensure timely lane response time

Maintenance

- Optimized to keep your drive-thru up and running, without missing a beat
- Ready for the next repair - before you need it

Efficiency at your Fingertips

Simple Self-Service
Changing batteries, boom foam, & more in a snap

Flexible Design
The sturdy design of the headset ensures comfortable fit for all head sizes

PAR Drive-Thru Timer Powered by Techknow™

Give drive-thru guests the convenience they expect. Supercharge throughput and sales by giving your crew and managers near-real-time feedback.

- Crew-facing screen gamifies speed of service and displays service time rankings, car positions, and more
- Measures and reports key metrics such as average service times, highest sales, total number of cars, window times, and average check
- Managers or corporate leaders can easily configure and fine-tune performance targets
- Above-store reporting gives managers and the corporate team the insights they need to act, accessible from any Web-enabled device. Filter by enterprise, region, site, and even individual transactions
- PAR support can remotely monitor and manage up to 50 detection points to quickly identify any issues without dispatching a technician, avoiding the time and cost of a truck roll

Key Benefits of PAR Drive-Thru Timer

When crews compete, everyone wins.

- Locations that deploy PAR Drive-Thru Timer typically show at least a ten-second reduction in service times. This translates to five additional cars processed per hour, for more revenue with the same crew in the same amount of time
- Motivates your crew and promotes teamwork and collaboration, leading to faster service and happier guests
- Boosts average check, as teams compete to rank highest in sales
- Near-real-time reporting gives managers the insights they need to resolve bottlenecks, improve process steps for faster service, and coach or train crews or individuals

World Class **Services**

PAR's team of dedicated industry experts ensures you get the highest level of innovation, quality and reliability to maximize your ROI. We designed a complete portfolio of services just for you – meaning we'll have your back before, during, and after deploying our products.

You can customize the following range of services to meet your local needs:

- Multiple Maintenance Support • Educational Services • Training
