

PAR offers flexible hardware maintenance (break-fix) service options so McDonald's operators can choose the level of service that is right for their individual operations. We understand that different operators have differing service level needs which can vary by each location.

Break-Fix Service Packages

OTP1 Package

Available for restaurants with an OTP1, OTP2 or OTP Pro

OTP2 Package

Available for restaurants with an OTP2 or OTP Pro

OTP Pro Package

Available for restaurants with an OTP Pro

Break-Fix Service Options

PRIORITIES

Priority 1:

Defined as one of the following:

- 50% or more of drive-thru registers down
- 50% or more of front counter registers/kiosks down
- Both sides of KVS down
- Unable to open/close manually

Priority 2:

Defined as any other incident that does not prevent the restaurant from processing customer orders.

RESPONSE TIMES

Priority 1:

Onsite within 4 hours, 6am – 11pm, 7 days/week

Priority 2:

Onsite within 8 hours, 6am - 11pm, 7 days/week (excluding holidays)

- Prerequisites include ATOS Helpdesk Support Contract.
- All hardware must be 100% operational prior to start of contract. Request for service may be placed with ATOS 24/7.
- Advance Exchange shipments are made at 3:30pm M-F and 1pm on Saturdays.

OTP PRO MEMBERSHIP

By becoming an OTP Pro VIP Member, you will receive all the benefits of being an OTP Pro along with direct access to our PAR senior technical support team. Our support team consists of highly trained and experienced technicians that have been supporting technical resources in the field for McDonald's and understand the obstacles a field technician, such as you, could come up against.
