

2024 Solutions Guide for McDonald's

All the Technology, Services & Support
You Need to Thrive

Proudly Serving McDonald's for Over 40 Years

EVER SERVING YOUR EVER CHANGING MCDONALD'S

PAR's EverServ®650 withstands the busiest drive-thrus, the most hectic lunch rushes, and the messiest spilled shakes.

Expandable memory and ample storage allow it to work in the most demanding locations, all while looking good thanks to its modern, sleek design. Backed by PAR's 40-plus years of experience and expertise as a McDonald's supplier, McDonald's owners and operators know they can trust the robust durability of the EverServ®650 POS hardware because it just works – every day, every time.

THE BEST CHOICE FOR SOUND DRIVE-THRU RESULTS.

A complete drive-thru headset system designed to give you a competitive edge.

Making sure drive-thru orders are handled quickly and accurately is an excellent way to improve the QSR customer experience and keep guests coming back. Now, PAR is helping you tap into the full potential of your drive-thru with an all-in-one communication system that combines unmatched sound clarity with rock-solid reliability.

Smarter Sound

Advanced Noise Reduction that cuts through the hum of noisy engines
Acoustic echo cancellation for clear communications

Designed for Today's Drive-Thrus

Effortlessly upgrade from single to dual-lane on-site, with color-coded lights for dual lanes
Easy manager supervision to ensure timely lane response time

Extended Maintenance Agreement

Optimized to keep your drive-thru up and running, without missing a beat
Ready for the next repair - before you need it

Built-In Greeter

Up to 16 messages that can be pre-recorded
Use greeter messages to promote key item
